Subject: Wednesday car wash

Hi.

A resident on Foster has repeatedly sent me messages about these people washing loads of cars on the street and in the driveway. They are running water down the street. This is a photo from Wednesday.

I believe someone from Code or Clean Water went out there a couple months ago but it makes no difference. They continue to wash cars on the street. It appears they either do it as a business or there are a lot of people living there. The neighbor says they've converted the garage into living space; they walked her through the house.

This is 2175 Foster Street.

Thanks for your attention. Chuck
